

TAHITI & TUAMOTU ISLANDS 2023

SHORE EXCURSION PACKAGE – 10 NIGHTS

MOOREA

FIRST OPTION - DOLPHIN WATCH EXPEDITION by Dr. Poole's biologist team

- Duration approx. 3 hours
 - Per Person: Euro 108
- Min 10 / Max. 11 (small boat) or Min.16-26 (bigger boat) - prebooking required

Join American marine biologist Dr. Michael Poole, a dolphin and whale specialist in French Polynesia since 1987, or his assistant for this combination eco-tour and research expedition focusing on wild, free-ranging dolphins.

Depart the pier aboard a covered boat for the scenic ride to Moorea's reef. Spinner dolphins and rough-tooth dolphins can be seen around Moorea, with spinner dolphins regularly swimming inside the lagoon. Most often you will see schools of acrobatic spinner dolphins, while listening to informative commentary about their remarkable life and society at sea. Dr. Poole's team operates with the utmost respect in the presence of these incredible animals. Dolphins are found on 95% of the tours, but the engaging narrative and sheer magnificence of Moorea's coastline will ensure a rewarding time in any event.

View Moorea's dramatic beauty from the sea, and time permitting you may have an opportunity to go swimming or snorkeling before returning to the pier.

- Although this tour is not a swim with the dolphins program, it is sometimes possible to snorkel near dolphins. Wear a swimsuit under a cover-up, and bring sunscreen, sunglasses, camera gear, snorkeling gear, and a towel from the ship. Operation of this tour is subject to guide availability. *(Dolphin sights cannot be guaranteed)*

MAKATEA

EXPLORATION TOUR: ENDEMIC BIRDS, ROCKPOOLS & THE GROTTO HALF DAY - EARLY AFTERNOON TOUR

- Duration approx. 4 hours
 - Per Person: Euro 89
- Min 15 / Max. 50 (prebooking required)

The island of Makatea is like no other found in French Polynesia. It is not a coral atoll but rather a raised island of coral. The limestone cliffs tower over the coast and the island's interior shows significant vegetation, complete with a few species of endemic birds and a peculiar expanse of limestone holes. In the early 20th century, important reserves of phosphate were discovered in these naturally occurring holes, and for over 50 years the island was the center of a thriving phosphate mining business. The mining ceased in the 1960s, and the island went from a home to thousands to that of less than 100 inhabitants. Today, this sleepy but spectacular island is home to three species of threatened endemic birds: the beautiful Makatea fruit dove, the impressive imperial pigeon, and the comely appearing singer extraordinaire, the reed warbler. Activities this morning will take us across this unique island to a magnificent beach with rockpools to explore before we visit an incredible grotto. Swimming deeper inside the grotto, this underwater cave system will slowly open out to reveal a spectacular watery cathedral, full of weird and wonderful stalagmites and stalactites.

RANGIROA

THE BLUE LAGOON TOUR WITH A MOTU LUNCH - FULL DAY TOUR

- Duration approx. 7 hours
- Per Person: Euro 137

Min 15 / Max 36 (prebooking required)
